

Your Dream Job Awaits!

It's never too early to begin thinking about landing your dream job, and our Career Services team is here to help you prepare for your lifelong career.

We designed an online [Career Management Foundations Course](#) to help you start your job search and develop in-demand professional competencies based on what employers are looking for.

You may have completed some of the course already if you were admitted for Summer/Fall 2020. However, it will benefit you to submit your resume and LinkedIn profile multiple times for review.

It is crucial for this course to be completed prior to your orientation. Please follow the instructions listed in your [New Student Checklist](#) to access this course. The last day to submit any deliverables for feedback is June 2.

Career Management Foundations Course

We are excited to help you in this next step of your professional development. Our team is here to ensure your success as both a graduate student and as a global business professional.

Best,
Lily Huang, MSA Career Coach
