

EagleSat – New Student Application

EagleSat is always seeking new members to join our team. It is important to have enough leads, assistants, and crew to ensure that the project and our ideals continue after the graduation of senior members. We invite any person interested in our project who has the traits that we are seeking to apply to be part of the team.

New applicants will be reviewed by the team. There will be an interview process for those who complete the review. Once interviews are complete, accepted members will be invited back for a formal introduction and training.

If you do not make the team, it is not because you are not wanted. As our team has already been established, there are only certain openings that need to be filled. We ask you to apply again the following semester/year when we reevaluate the needs of the project.

Desired Qualities:

- Desire to learn outside of the classroom.
- Able to demonstrate self-motivation and dedication in your work.
- Basic knowledge of your desired system and/or experience working in a similar field.
- Willingness to work on a team with other members and a team lead.
- Ability to attend trainings for various aspects of the project.
- Sufficient time to contribute to the project and your fellow team members.

If you do not possess all the desired qualities, this does not exclude you from being accepted.

This page should be removed from your application for submission.

EagleSat – New Student Application

Please fill out this application to the best of your abilities and return it to the EagleSat Lab (bld. 76, rm. 127) or by email as a PDF to EaglesatProgram@gmail.com as soon as possible. We are open to new members year-round but prioritize applications around recruitment events.

Please note that if you do not make the team, it is not because you are not wanted. As our team has already been established, there are only certain openings that need to be filled. We ask you to apply again the following semester/year when we reevaluate the needs of the project.

First Name: _____ Last Name: _____

ERAU ID #: _____ ERAU Email Address: _____

Degree Program: _____ Track/Focus: _____

Class Standing (circle one): Freshman / Sophomore / Junior / Senior / Senior+

Expected Graduation (circle one + year): Fall / Spring | _____

Cumulative GPA: _____ Current Credit Load: _____

Please consider attaching an unofficial transcript and resume.
(This is completely optional and is only a bonus, not a detriment!)

Is a copy of your unofficial transcript attached? (circle one): Yes / No

Is a copy of your resume attached? (circle one): Yes / No

Are you interested in EagleSat 2, EagleSat 3, or both:_____

Why are you interested in working with the EagleSat Program?

Are you interested in a particular team/aspect of the program?

What skills and/or experiences qualify you for the team? Provide examples.

Describe your weekly availability including classes, prior commitments, and jobs.

When will you be available for an interview? Would you prefer a in person or virtual interview?

Tell us something interesting about yourself.

Your application will be review by the team. This is just a means for the team to learn a little about you and about how you may be able to contribute. The most important part of this process is the interview, which we will schedule with you after the application review. Thanks for choosing to be a part of the EagleSat Project and we wish you the best of luck in your studies.
